Import AVCHD clips recorded in a SD card.
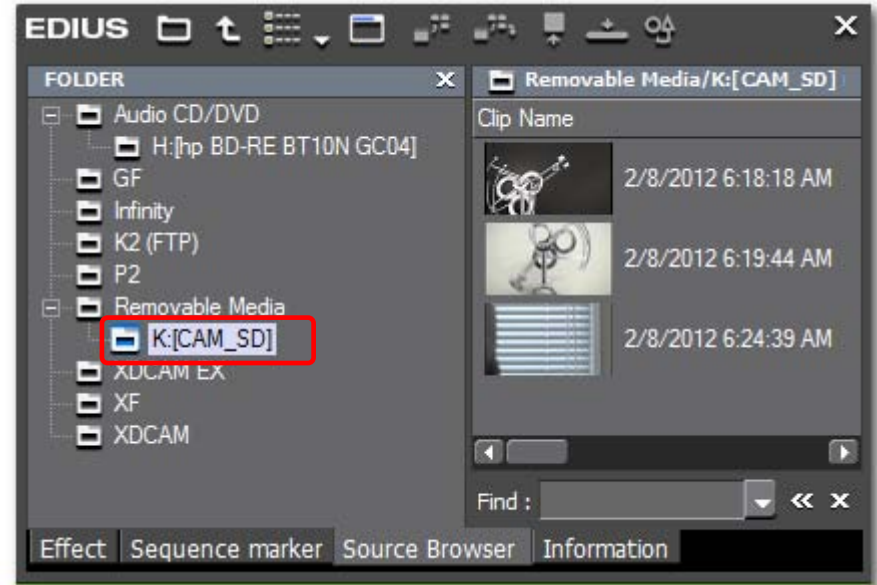

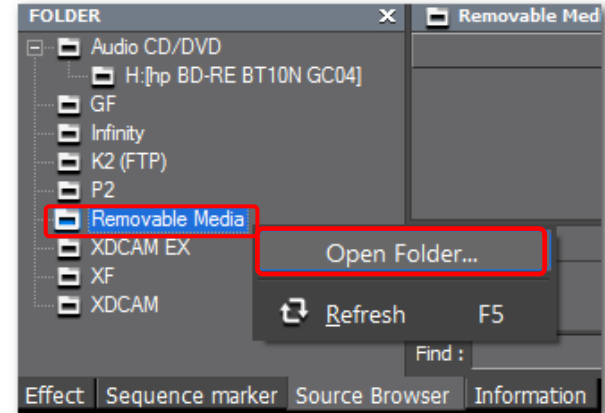

The media is recognized as "Removable Media" on Source Browser.
Clips appear when clicking the media.

Right-click on a clip and select "Add to Bin" or "Add and Transfer to Bin" to put it into a bin.

Import AVCHD clips copied in a storage like hard disk drive.

1. Right-click on "Removable Media" and select "Open Folder.

2. Select parent folder of the desired AVCHD folder,
   then click "OK".
   Clips appear when clicking the parent folder.
